

**Moorfields International Uveitis Symposium
Thursday 11 – Saturday 13 July 2024
The Royal Society of Medicine
London**

DAY 1 – Thursday 11 July	
8.50-09.00	Welcome - Carlos Pavesio
Session 1 - Current approach in the diagnosis of uveitis	
9.00-9.20	Clinical assessment of uveitis - Moncef Khairallah
9.20-9.40	Investigational work-up: a rational approach in uveitis – Mark Westcott
9.40-10.05	Top 10 mistakes in uveitis - Vishali Gupta
10.05-10.20	The role of the microbiome in uveitis – Kajal Agrawal
10.20-10.40	Discussion
10.40-11.00	Coffee Break
Session 2 - Multi-modal imaging in uveitis	
11.00-11.15	Angiography – why traditional techniques (FFA and ICG) can't be replaced by new modalities - Carl Herbort
11.15-11.30	Wide field imaging - uses, new findings and their relevance - Piergiorgio Neri
11.30-11.45	Novel applications of OCT/EDI-OCT/OCTA in the differential diagnosis of uveitis - Piergiorgio Neri
11.45-12.00	Multimodal Imaging in Uveitis - Biologic Basis - Colin Chu
12.00-12.15	Discussion
12.15-1.30	Lunch
Session 3 - Infective vs non infective	
1.30-1.45	Hypopyon: not always infective - Moncef Khairallah
1.45-2.00	Vitritis: not always autoimmune - Bahram Bodaghi
2.00-2.15	Retinal vasculitis: does it tell something about etiology? - Harry Petrushkin
2.15-2.30	Retinitis: is it always infective? - Ahmed Abu el Asrar
2.30-2.45	Choroiditis: a diagnostic dilemma between infective and non-infective - Vishali Gupta
2.45-3.00	Discussion
3.00-3.15	Tea break
Session 4 - Infectious disease I – Herpetic uveitis	
3.15-3.30	Herpetic anterior uveitis - Bahram Bodaghi
3.30-3.45	Acute retinal necrosis in immunocompetent patients - Nicholas Jones
3.45-4.00	Necrotizing herpetic retinitis in immunocompromised patients - Andre Curi
4.00-4.15	Discussion

Session 5 - Masquerade Syndromes	
4.15-4.30	Primary intraocular lymphoma - Ed Pringle
4.30-4.45	Other neoplastic masquerades - Marc de Smet
4.45-5.00	Autoimmune Retinopathy and Paraneoplastic Syndrome - Tas Braithwaite
5.00-5.15	Discussion
Close: 5.15	

DAY 2 – Friday 12 July	
Session 1 - Non infectious disease I – Choroid and ocular inflammation	
9.00-9.15	Ocular sarcoidosis - Nicholas Jones
9.15-9.30	Sarcoidosis: systemic considerations in uveitis patients - Onn Min Kon
9.30-9.45	Vogt-Koyanagi-Harada syndrome - Ilaria Testi
9.45-10.00	Birdshot Retinochoroiditis - Ioannis Papasavvas
10.00-10.15	Choriocapillaritis – MEWDS APMPE, Multifocal Choroiditis - Carl Herbort
10.15-10.30	Discussion
10.30-10.45	Coffee Break
Session 2 - Infectious disease II – Infectious uveitis	
10.45-11.00	Ocular syphilis - Mark Westcott
11.00-11.15	Syphilis: systemic considerations in uveitis patients - Soonita Oomeer
11.15-11.30	Endogenous endophthalmitis - Rupesh Agrawal
11.30-11.45	Ocular tuberculosis - Vishali Gupta
11.45-12.00	Tuberculosis: systemic considerations in uveitis patients - Onn Min Kon
12.00-12.15	Toxoplasmic retinochoroiditis - Carlos Pavesio
12.15-12.30	Other parasitic infections - Gerry Clare
12.30-12.45	Cat scratch disease - Andre Curi
12.45-13.00	Emerging infectious uveitis: Zika, Ebola, Dengue and Chikungunya - Moncef Khairallah
13.00-13.15	Discussion
1.15-2.30	Lunch
Session 3 - Non infectious disease II – Primary systemic vasculitis and Retinal Vasculitis	
2.30-2.45	Behcet’s disease - Ilknur Tugal-Tutkun
2.45-3.00	Retinal vasculitis in other primary systemic vasculitis - Ahmed Abu el Asrar
3.00-3.15	Clinical features of Intermediate uveitis: symptoms, signs and classification - Ioannis Papasavvas
3.15-3.30	Investigations and treatment options for uveitis in pregnancy - Charlotte Frise
3.30-3.45	Discussion
3.45-4.00	Tea break
Session 4 - Challenging cases, chaired by Peter Addison	
4.00-4.12	Case 1 - Anamika Patel

4.13-4.25	Case 2 - Abdulrhman Albloushi
4.26-4.38	Case 3 - Abdulrhman Albloushi
4.39-5.01	Case 4 - Georgios Koutsocheras
5.02-5.14	Case 5 - Olayinka Williams
5.15-5-27	Case 6 - Stella Fragkopoulou
Close: 5.27	

DAY 3 – Saturday 13 July	
Session 1 - Pediatric uveitis	
9.00-9.15	How to approach diagnosis in children with uveitis - Harry Petrushkin
9.15-9.30	How to approach management of children with uveitis - Ilaria Testi
9.30-9.45	Management of paediatric uveitis – cataract - Lola Solebo
9.45-10.00	Management of paediatric uveitis – glaucoma - John Brookes
10.00-10.30	Discussion
10.30-10.45	Coffee Break
Session 2 - Treating uveitis	
10.45-11.00	Physicians approach to investigating systemic vasculitis - Sahil Jain
11.00-11.15	Systemic corticosteroid treatment; balancing risks and benefits - Will Tucker
11.15-11.30	When to start conventional immunosuppression - choice of agents - Ilknur Tugal Tutkun
11.30-11.45	Biologics - balancing risks and benefits - Marc de Smet
11.45-12.00	Travel advice: Immunisation and immunosuppression - Tas Braithwaite
12.00-12.30	Discussion
12.30-2.00	Lunch
Session 3 – Local Therapies	
14.00-14.15	Dexamethasone implant use in Uveitis - Peter Addison
2.15-2.30	Iluvien use in Uveitis - Will Tucker
2.30-2.45	Practical aspects on the use of local therapy - Carlos Pavesio
2.45-3.00	Vamikibart - a new approach to the local therapy of uveitic CMO - Carlos Pavesio/Laura Steeples
3.00-3.15	Discussion
Session 4 – Use of big data in uveitis	
3.15-3.30	General Considerations on AI - Pearse Keane
3.30-3.45	Big Data in Uveitis - how can we benefit from it? – Colin Chu
3.45-4.00	How to collect big data for uveitis (COTS, TITAN, REVISE) - Rupesh Agrawal
4.00-4.20	Discussion
Close: 4.20
